

LET'S SHAKE YOUR COMMUNITY

Earthquake Hazard Mapping Approach for Community Resilience

Emi Kiyota, Ph.D

Japan: Ibasho House

Partner: Ibasho Sozo Project

- Multi-generational community hub
- Café (10am-4pm) everyday except for Thursday
- Community Resource Center
 - Vegetable farm
 - Farmer's market
 - Noodle shop
 - Knowledge transfer
 - Local cultural value
- Elders find opportunities to contribute to their community

more than creative

Objective

Initiate conversation among elders about how to make their communities more resilient, going beyond just completing the evacuation map for elders through the mapping process.

Mapping workshops

June, 2015 Evacuation map for elderly

October, 2015 Community resource map

December, 2015 Access map: shopping, hospital, services

June, 2016 Elder led community program for increasing mobility

Mindset change through elder led mapping process

Issues related elders = Cost

Assets that produce new opportunities

Lessons

- Discover existing challenges and resources
- Shared understanding of the issues in their community (e.g. emergency response, transportation, or shopping)
- Find their own solutions
- Take ownership of their decisions
- Take concrete actions within their capacity
