

# Uncertainty

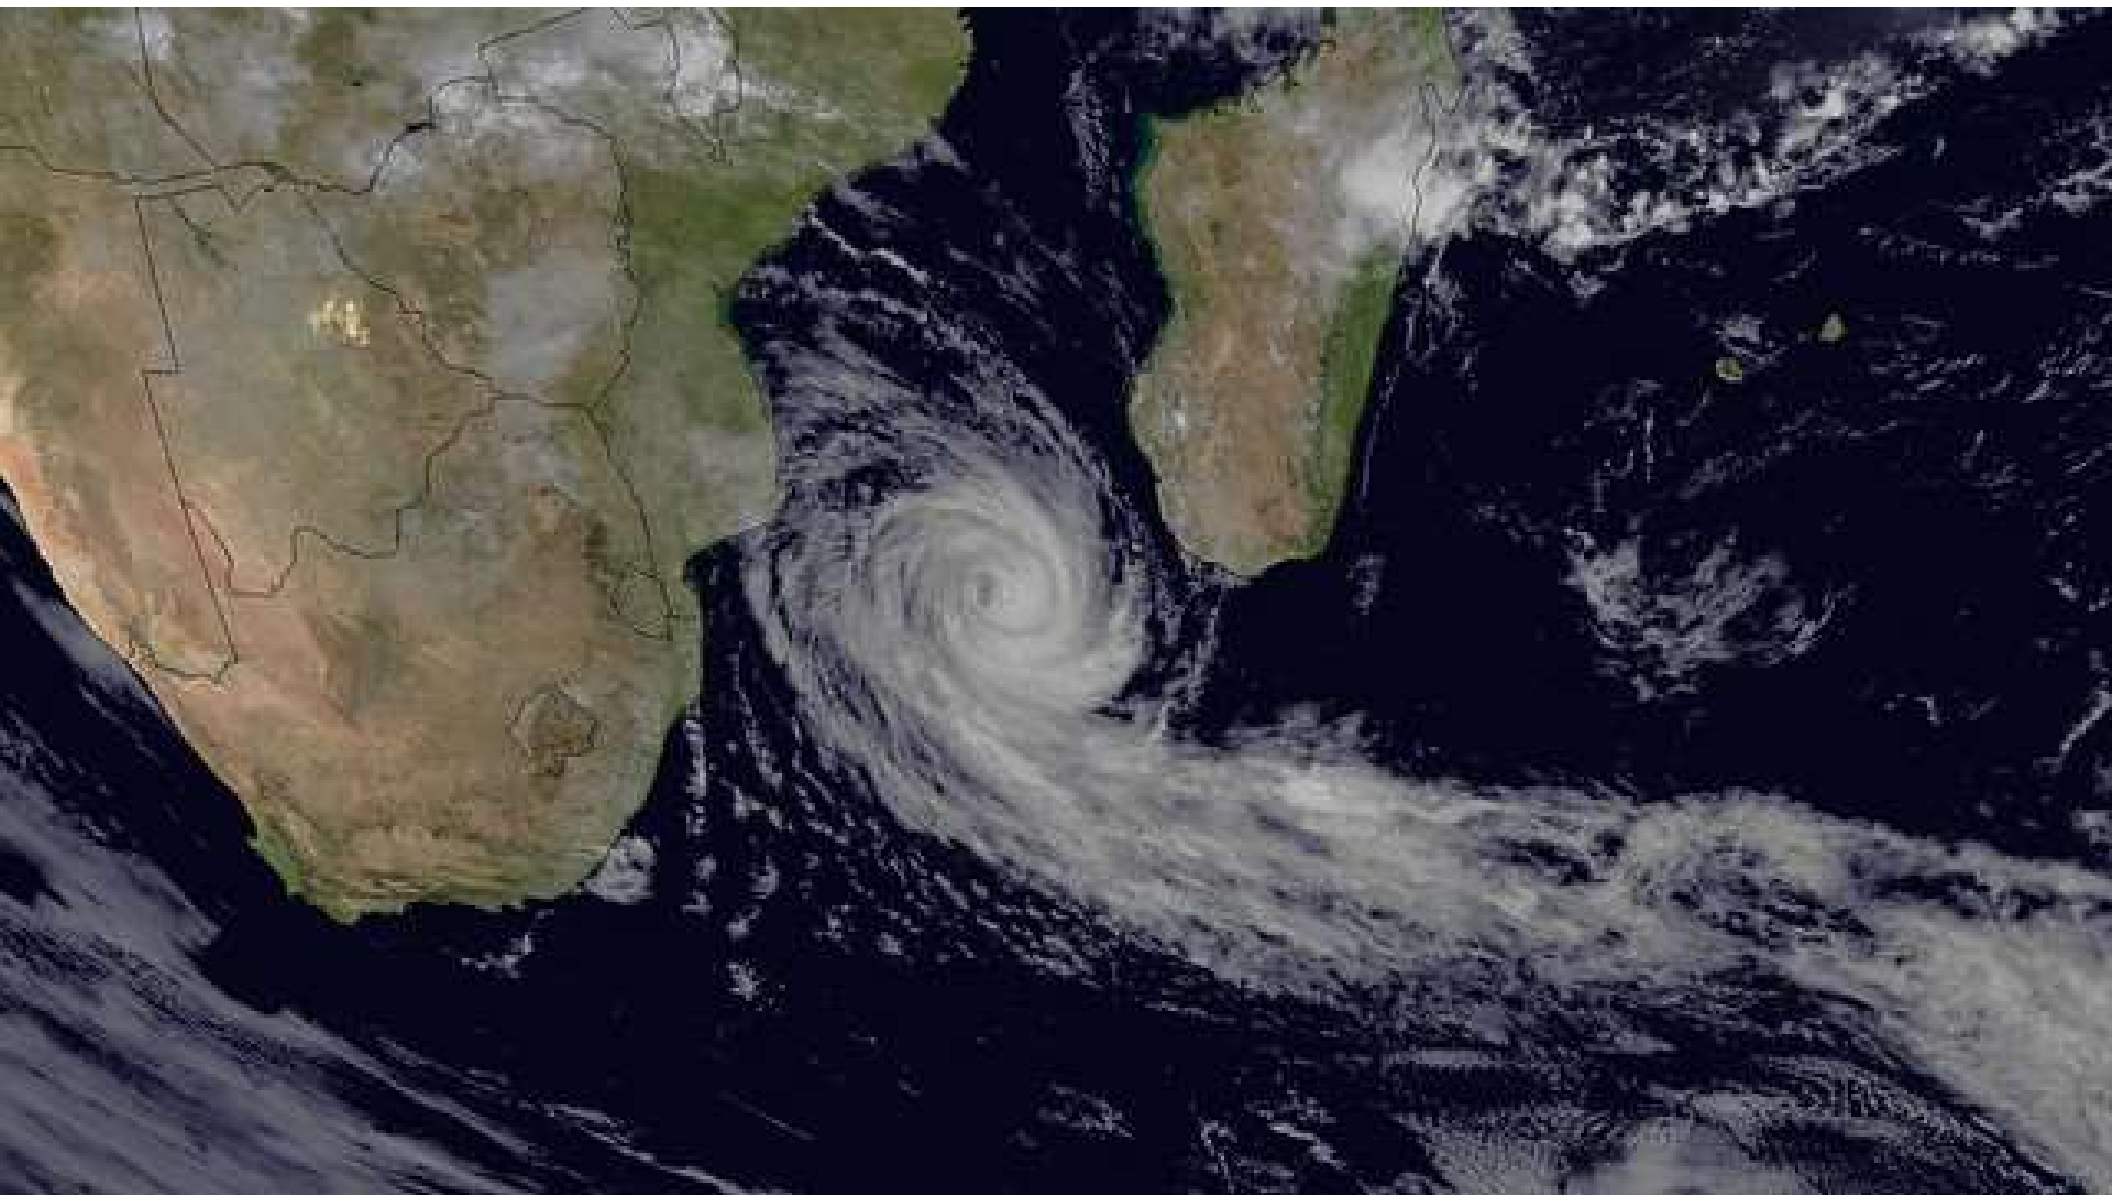

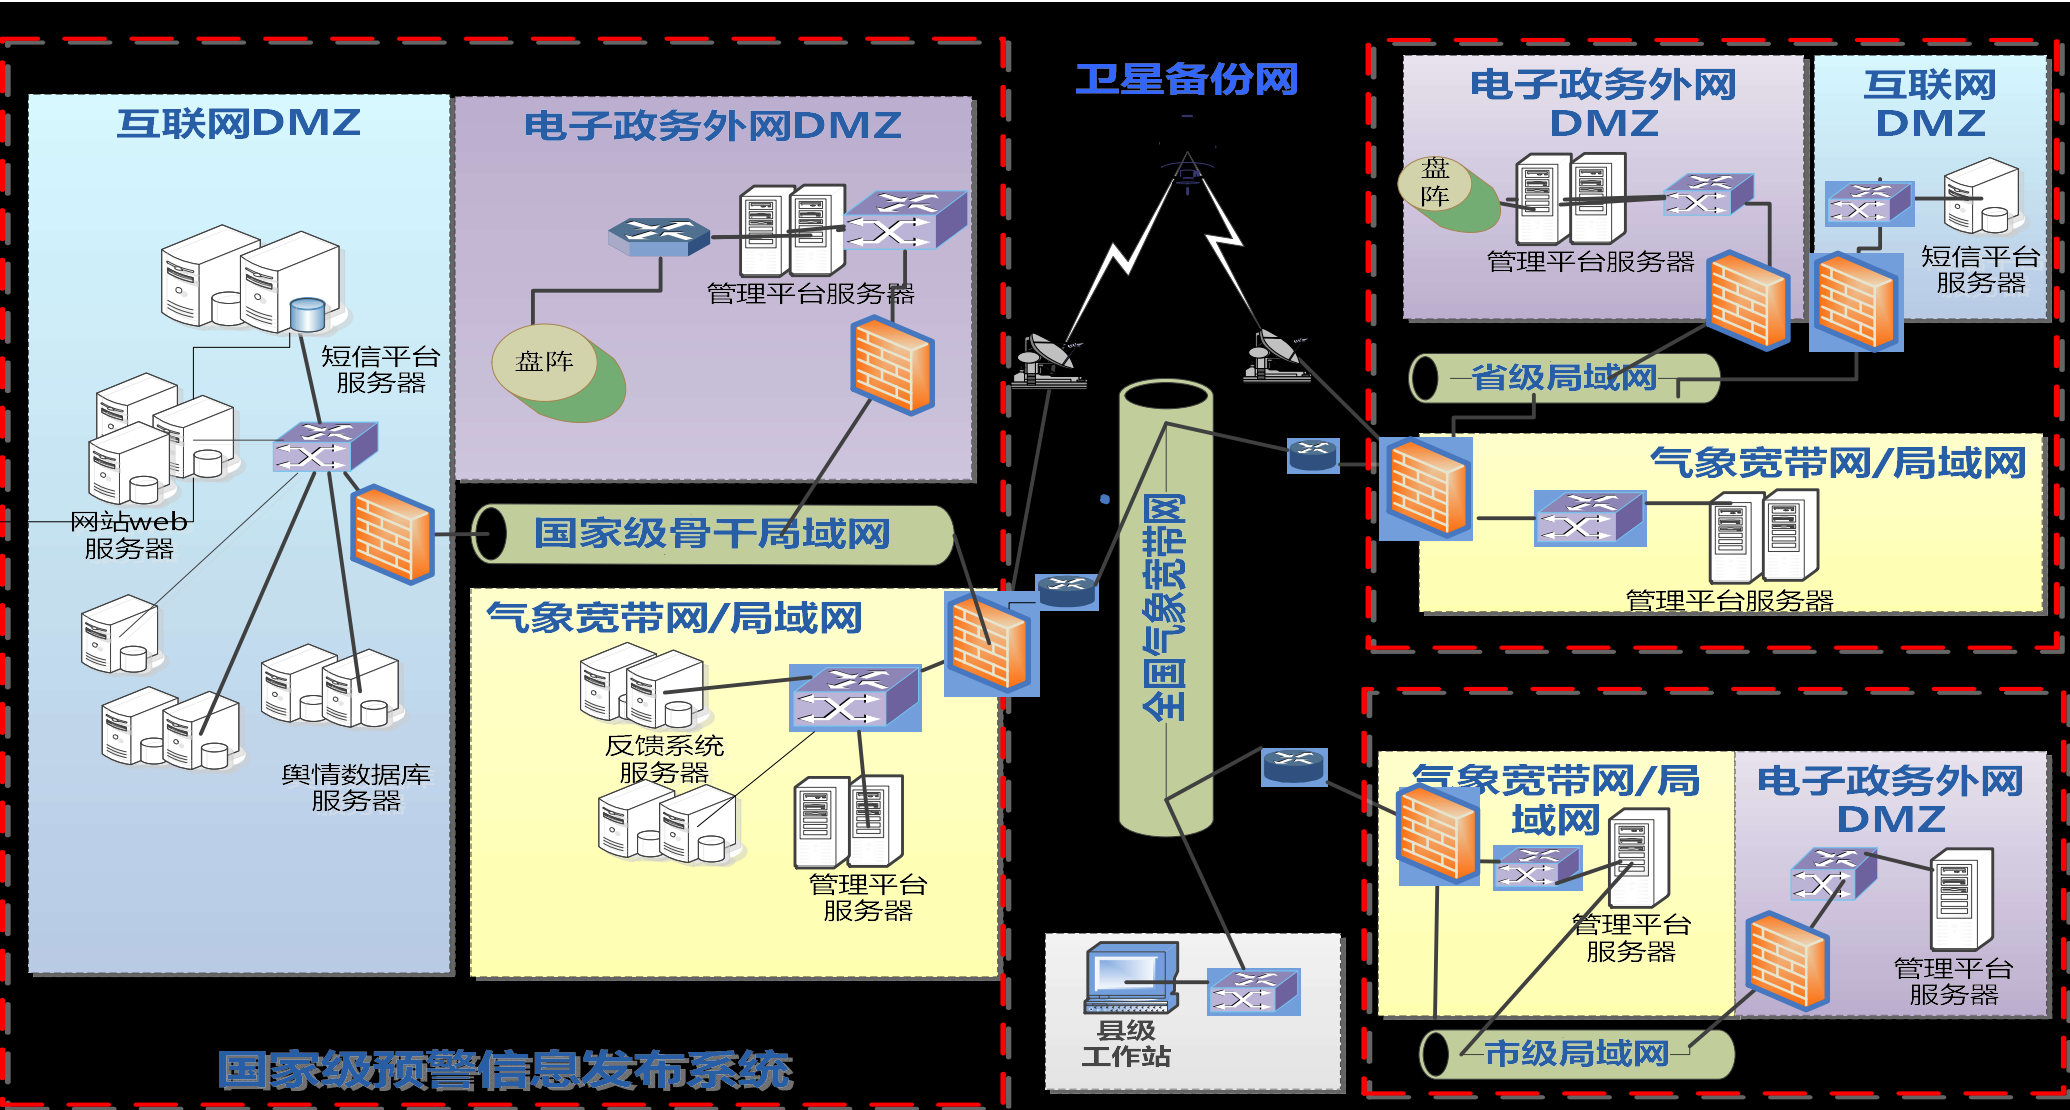

Pictures credits : WMO, Geneva / DPC, Haiti

Let's play a game

What you need is to have the right information  
on time

You want the population  
to be adequately  
prepared and timely  
informed

A photograph of two young girls holding hands and standing in a flooded street in a slum. The girl on the left is wearing a white dress with a brown floral pattern, and the girl on the right is wearing a white and blue striped shirt with a cartoon character and blue jeans. In the background, there are several people standing in the water, and the buildings are old and dilapidated. The sky is overcast.

You want to reach  
the most vulnerable  
of your citizens

You want to support the  
communities and first  
responders

And make sure they are  
ready to face a disaster

You want women to be  
able to respond to  
Early warnings

What you need is an :

- Effective
- Risk informed
- Impact based
- People centered
- Gender sensitive

Early warning system

# Early warning project

\$5.5 million

Support Caribbean countries  
to access Early Warning  
across the region

# Investing in early warning - an interactive session -

TECHNICAL SESSION

**WEDNESDAY 29 MAY – 2.00 to 3.15 pm**  
Session Track D – SB First Citizens Room

# End-to-End early warning systems - What does it take to avoid a disaster -

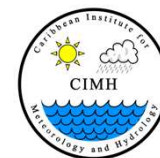

## WORKSHOP

THURSDAY 30 MAY

EBCCI

9 am -12:30 pm

### CREWS Contributing Members

Australia
