EXTENSION REQUEST FOR EXPRESSION OF INTEREST RISK ANALYST

IC.PREPSpc/SMH/CON02

- INDIVIDUAL CONSULTANT -

THE PACIFIC COMMUNITY - FIJI

PACIFIC RESILIENCE PROGRAM (PREP)

PROJECT ID: 14739

Assignment Title: Risk Analyst

Reference No. (as per Procurement Plan): IC. PREPSpc/SMH/CON02

The Pacific Community (SPC) has received financing from the World Bank toward the cost of the Pacific Resilience Program (PREP), and intends to apply part of the proceeds for consulting services.

SPC wishes to invite eligible Individual Consultants to express their interest in providing their services for Risk Analyst.

The Risk Analyst will oversee the development of decision tools and the requisite multi-hazard spatial risk data and information systems required for it. This includes the review of prior risk data and information initiatives, such as PCRAFI with a view to develop a modern digital information and data decision support systems. The *risk for planners decision support tools* will contextualize risk information to inform decisions and/or develop evidence based policy. The applications will drive the development of the tools and systems development will be based on extensive consultation and engagement with target user groups, such as urban planners, infrastructure/investment planners and disaster managers in PREP countries and a thorough understanding of planning processes and work flows.

It is envisaged one year, renewable for an additional year subject to satisfactory performance and a 3 months' probationary period after appointment.

SPC now invites eligible Individual Consultant ("Consultants") to indicate their interest in providing the Services. Interested individual consultants must provide information indicating that they are qualified to perform the services: Curriculum Vitae (should include a description of education and general qualifications, similar assignments, experience in similar conditions etc. and the names, business contacts and email addresses of three referees).

The successful candidate shall have (Essential Qualifications and Knowledge/Experience): 1) A Master's degree, or equivalent experience, in a relevant field, e.g. geo-science, environmental science, engineering, with demonstrated experience in hazard or risk analysis applications; 2) Experience in developing hazard and/or risk analysis solutions for
