# UR2020<sup>10</sup>

Understanding Risk Forum | May 18-22, 2020 | Singapore

# UR community

The Understanding Risk (UR) Community is the pre-eminent platform for collaborating and sharing knowledge in the field of disaster and climate risk assessment.

UR believes that our ability to manage disaster and climate risk is **only as good** as our ability to identify risk and connect risk information to stakeholders, leading to more **evidence-informed decisions**.

Celebrating **ten years** as an innovative community, we have seen the creation of numerous partnerships and advances in science in part thanks to the **energy, passion** and **enthusiasm** of UR members.

Every two years UR meets at global forums to showcase the **latest science and technology** in the field and to build new partnerships to foster **innovative breakthroughs**.

These global events attract the **world's leading experts and practitioners** in disaster and climate risk management and reduction. Attendees come from a **wide range of sectors**, such as civil society organizations, private sector, government, media, multilaterals, and academia.

8000+ community members 2000+ organizations 180+ countries

Join us for 5 days in Singapore

1000+ attendees 60+ technical sessions

## UR collaborations

On May 18 - 22, 2020, over 1,000 attendees will convene in Singapore for the ten-year anniversary of UR. This forum promises to be the most innovative and exciting forum yet, exploring the future of disaster risk and its evolving nature while showcasing cutting-edge technologies that are improving the field.

UR forums are only as good as the support of our collaborators. We invite you to become a collaborator for the tenth anniversary of UR!

### UR donor

Do you believe in our mission and want to support the community? We are happy to take donations or facilitate scholarships for attendees. Donations from Singapore organizations are tax deductible. Please get in touch with us.

### UR partner

How can we tell your story during the 5 days? Whether it is through a VIP event, artistic installation, student scholarships, a keynote speaker, or many other options, let us know and we can work together to find the right option for you.

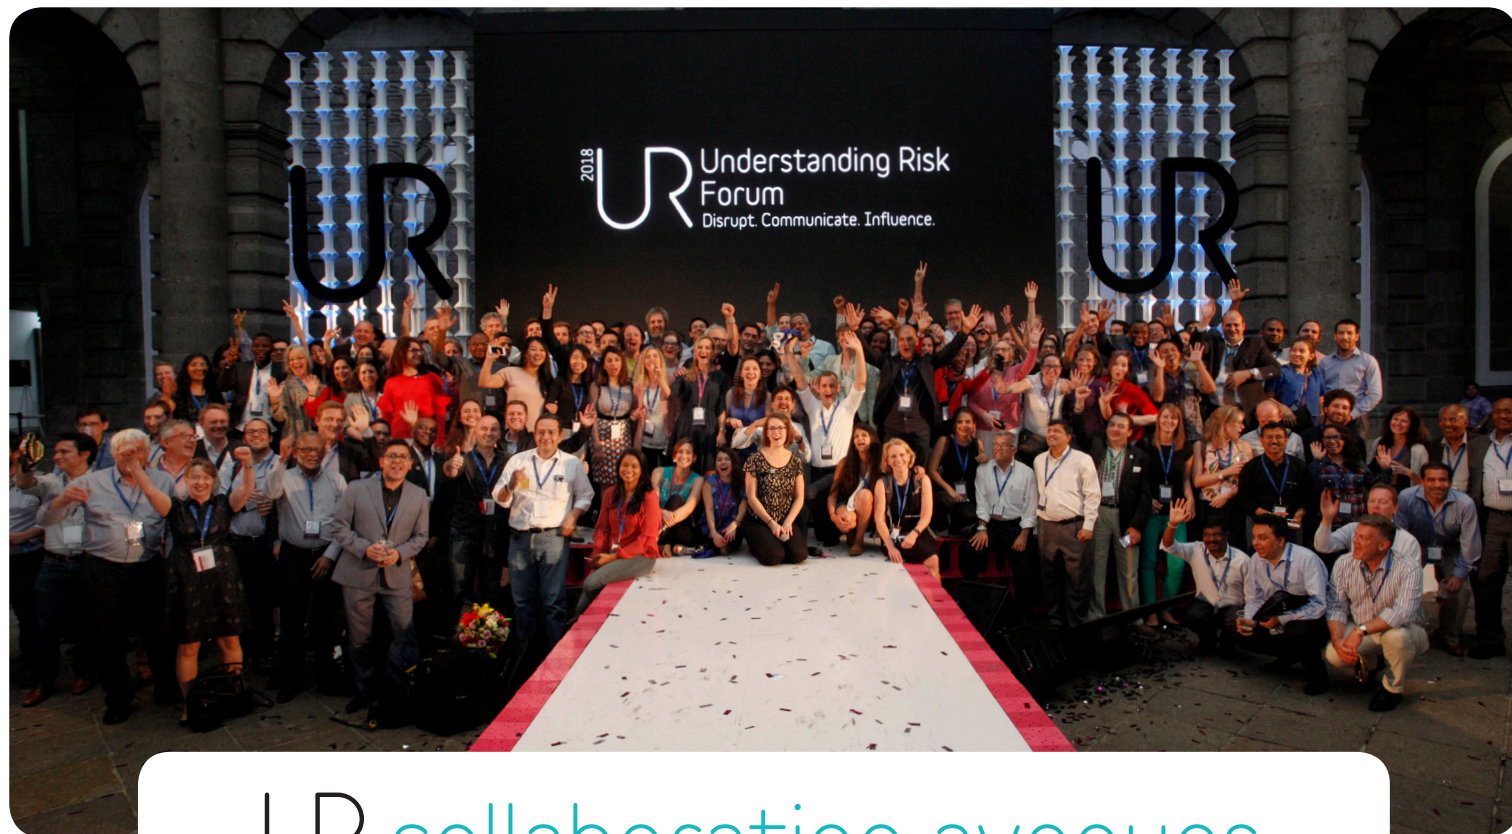

### UR sponsor

UR covers all daily needs of attendees and waives registration fees of anyone who is unable to pay the attendee fee. If you are interested in supporting the organizational costs, such as catering, this is the option for you.

### UR expo

Do you want to be a part of the Expo? There is a dedicated area to set up a booth to display your products and services. The Expo will be in the heart of the networking area to create an engaging atmosphere.

# UR collaboration avenues

Depending on the type of collaboration you are interested in, there are a range of cost amounts associated.

## UR donor

We take any donation amount to support the community. Without the help of organizations like you, we are unable to support scholarships for those who cannot afford it, like representatives from developing countries, youth or community representatives. If you are interested in supporting scholarships, please get in touch with us. We will work with you to understand what types of individuals you would like to support.

## UR partner

UR partner activities are bespoke and range in price from SG\$7,500 to \$200,000. Some examples of activities include the UR Retrospective, which will trace the UR Community over the ten years; and an art / science exhibition that showcases how art can be used to communicate risk. If you are interested in organizing a custom activity at UR, we are happy to work with you to deliver something that fits your budget and your interest. Your logo will be displayed during the activity.

## UR sponsor
